

To Whom It May Concern:

K-LOVE serves my family and our friends as residents of our local community. We know people far and wide who also enjoy K-LOVE.

K-LOVE offers family-friendly programming that we loved from the moment we knew it was available. No other radio station in our region can match the wholesome values and positive and encouraging impact on our community that K-LOVE does. My husband and I would not let our three children listen to any other station.

K-Love is valuable to our community because it provides an uplifting and positive impact, leaving out crude talk-show hosts and negative and non-children-friendly music. Our children are the most important part of our lives and we want them to have the ability to listen to good music without worrying that they will hear something that could hurt them.

Please don't take away K-LOVE.

Thank you for your consideration.
